

# Redesigning the Student Journey

To revolutionize the high school experience by empowering students to explore their individual skills and goals, paving the way for post-secondary success.

## SY 25-26

**Launching our Plan:** Middletown High School will roll out a new and innovative student experience for all incoming 9th-graders, focusing on pathways to a career, college, and the military.

**Building on Success:** Middletown High School commits to extending our groundbreaking educational model from 10th through 12th grades, perpetuating the journey of innovation in education.

## SY 24-25

**Continuous Enhancement:** We will continue to expand and improve upon our new approach to high school to boost both school and community success.

**Strategic Development:** We are committed to introducing new and innovative educational practices through partnerships to help us keep our curriculum up-to-date and engaging.

## SY 23-24

**Goal Refinement:** Middletown leaders, teachers, and students united to enhance the high school experience, emphasizing collaborative learning and individual growth.

**Strategic Alliances:** The team joined forces with the Ohio Department of Education and Workforce, utilizing state resources to bolster our educational strategies.

**Ideation and Experimentation:** We embarked on a mission to trial new educational concepts, tapping into a wealth of knowledge and innovative practices.

**Collaborative Insights:** We engaged with educators across the country, visiting schools in other states to learn from their innovations. Together with local colleges and businesses, we used these insights to develop a more advanced educational framework.

**Engaging the Community:** Updates were regularly shared, valuable feedback was sought, and students' voices were heard to continually refine Middletown High School.
